

## Contents

|   |     |
|---|-----|
| <b>S. Lozić, V. Mudrinski, J. Žunić:</b> Some results in discrete mathematics and digital geometry by professor Dragan Acketa.....                                  | 1   |
| <b>S. Pilipović, M. Stojanović:</b> $\mathcal{G}$ -quasiasymptotics at infinity to semilinear hyperbolic system .....   | 15  |
| <b>S. Pirzada:</b> Simple score sequences in oriented graphs .....  | 25  |
| <b>H. F. Yashima:</b> Equation stochastique de dynamique de populations du type proie-predateur avec diffusion dans un territoire .....                             | 31  |
| <b>Z. Suvajdžin, M. Hajduković, Ž. Živanov:</b> Character oriented program editing – habit or necessity? .....  | 53  |
| <b>M. Hajduković, Z. Suvajdžin, Ž. Živanov:</b> A problem of program execution time measurement .....   | 67  |
| <b>B. de Malafosse:</b> Some properties of the sum of linear operators in the non-differential case .....   | 75  |
| <b>Z. Walczak:</b> On modified Szasz-Mirakyan operators .....   | 93  |
| <b>Lj. Petković, M. Petković, D. Živković:</b> Hansen-Patrick’s family is of Laguerre’s type .....  | 109 |
| <b>P. de Lucia, E. Pap:</b> Matrix method approach to Cafiero theorem .....   | 117 |
| <b>M. Janić:</b> Some properties of H-projecting .....  | 129 |
| <b>Z. Uzelac, K. Surla:</b> A uniformly accurate collocation method for a singularly perturbed problem .....  | 133 |
| <b>D. Herceg, M. Miloradović:</b> On numerical solution of semilinear singular perturbation problems by using the Hermite scheme on a new Bakhvalov-type mesh ..... | 145 |
