

Contents

In Memorial: Kazimierz Głazek	1
B. J. Malešević : Some combinatorial aspects of the composition of a set of functions	3
B. Singh, S. Jain, S. Jain : Fixed Point Theorems in D-Metric Space through Semi-Compatibility.....	11
D. Fetsu : Quaternionic maps between a hyper-Kähler manifold and a 3-almost contact manifold	21
S. Pirzada, T. A. Naikoo, T. A. Chishti : Score sets in oriented bipartite graphs	35
T. Noiri, V. Popa : Some properties of weakly open functions in bitopological spaces	47
M. Masal : $(m+1)$ -Dimensional spacelike parallel p_i -equidistant ruled surfaces in the Minkowski space R_1^n	55
G. Eigenthaler, B. Šešelja, A. Tepavčević : Weak congruences of algebras with constants.....	65
D. Turkoglu, I. Altun, B. Fisher : Common fixed point theorems for four mappings with some weak conditions of commutativity	75
J. Pantović, B. Rodić, G. Vojvodić : Hyperclone lattice and embeddings	87
Q. Khan : On an Einstein projective sasakian manifold	97
I. Štajner-Papuga : (\oplus, \odot) -Laplace transform as a basis for aggregation type operators	103
I. Luković, S. Ristić, P. Mogin, J. Pavićević : Database schema integration process – a methodology and aspects of its applying	115
I. Čomić, M. Anastasiei : Curvature theory of generalized connection in $J_k^2 M$	141
