

Contents

N. Aldea, M. Purcaru: \mathbb{R} -complex Finsler spaces with (α, β) -metric	1
Y. Tunçer, M. K. Sağel, Y. Yayli: On kinematics of semi-Euclidean submanifolds on the plane in E_1^3	11
M. Akram, A. A. Zafar, A. A. Siddiqui: A general class of contractions: A -contractions	25
B. Xh. Fejzullahu: Divergent Legendre-Sobolev polynomial series	35
M. Mirković, D. Surla: Modelling and implementation of the application for students enrol form update	43
M. Khare, A. K. Singh: Atoms and a Saks type decomposition in effect algebras	59
Hong-Yan Xu, Hong-Xia Zhang, Cai-Feng Yi: Uniqueness theorems for meromorphic functions that share three sets with weights	71
A. Tekcan: On indefinite binary quadratic forms and quadratic ideals	83
P. K. Pandey, R. S. Gupta: Characterization of a slant submanifold of a Kenmotsu manifold	97
G. Czédli: Stronger association rules for positive attributes	103
D. Mašulović: On endomorphism monoids of partial orders and central relations	111
S. Pilipović, F. Vajzović, M. Vuković: Distribution semigroups on function spaces with singularities at zero	127
V. Perić, M. Vuković: Some examples of principal ideal domains which are not Euclidean and some other counterexamples	137
I. Čomić, J. Stojanov, G. Grujić: The spray and antispray theory in the subspaces of Miron's $Osc^k M$	155
B. Šobot: Fixed points of normal functions	177
